TEN OPERATING RULES

- 01 Enrolment and fees.** Confirmed only on submission of the registration form and remittance of ₹1,499 per student. Enrolment does not constitute completion.
- 02 Nomination of facilitators.** The school nominates qualified teachers able to deliver the programme with the required quality and consistency, confirmed to DA before training begins.
- 03 Mandatory certification.** DA trains facilitators online in three phases: kick-off, check-in at two weeks, debrief. Only certified trainers may deliver Climator.
- 04 Programme materials.** The resource toolkit and logbook are issued to nominated teachers, for programme delivery alone.
- 05 Protected instructional time.** One timetabled hour a week for 13 weeks: concept delivery plus field activity. Not to be curtailed or reallocated.
- 06 Documentation and evidence.** Students log each weekly mission with photographic evidence; the nominated teacher verifies and signs off every entry.
- 07 Reporting and ongoing support.** Attendance and assessment records go to DA at the close of each cohort; check-in sessions address queries in the interim.
- 08 Assessment and certification.** Granted after DA reviews the logbook, evidence and quality of work. Successful students receive a joint DA–IAYP digital certificate counting towards the Bronze Award.
- 09 Student safety and consent.** Field activities run under teacher supervision. Written parental consent is required before any student photograph, name or work is shared or published.
- 10 Intellectual property and credit.** The Climator name, curriculum and materials are DA's exclusive property: no alteration, reproduction, translation or reuse elsewhere. Any material referencing Climator needs DA's written approval and must credit DA and IAYP.
